

Les algorithmes, l'art et
la génération de texte

Un algorithme ?

Un algorithme est une série d'instructions permettant de résoudre un problème.

Il comporte en générale des données en entrée et un résultat en sortie.

Exemple d'algorithme Algorithme d'Euclide

Google ALGORITHMS As of March 2019

						
Panda	Penguin	Hummingbird	Fred	Pigeon	RankBrain	Mobile
Panda 4.2 Update: July 18, 2015 This update was released to focus on spammy links and low-quality content. This update was welcomed by all the sites that were penalized by Panda 4.1 however rectified the issues to get out of the pack. Panda 4.2 did a recheck of all the sites and the sites that performed well were stopped being triggered.	Penguin 4.0 Update: Sep 23, 2016 The update was integrated into Google's core ranking algorithm used to evaluate the site(s) while crawling it. The site started gaining its rank back after the issues that were responsible for a dip in their rank were resolved. The second change was that it stopped penalizing the entire website for the spam signal and started the individual page analysis.	Hummingbird Update: Aug 21, 2013 This update was released for the motive of focusing on the semantic search. The specific goal is to offer more relevant and personalized results on the basis of trends/pattern, location, and online behavior.	Google Link Quality Update: Mar 09, 2017 The update was related to the link quality. This update targeted sites that were over advertising. This used to attack the sites with more ads advertised to collect extra revenue and gave the inferiority complex to the content.	Google Local Algorithm Expands: Dec 22, 2014 Pigeon Google search algorithm aimed to offer better local search results by rewarding local businesses that have a strong organic presence with better visibility in traditional search, similar to the visibility a business may have seen previously in Google Maps.	RankBrain Related Search Update (undisclosed): Dec 10, 2015 This update boosted Google's special SERP features resulting in an increase in the number of SERP's containing related search as well as the improvement in the word count of related search phrases averagely.	Speed Update Release (Mobile): July 9, 2018 Google thought of releasing Speed update that forces the sites to improve the page speed on mobile so that it loads faster. This update is only for the sites that are extremely slow wherein the minor changes will not change the ranking on Google search. The markable changes need to be released so that Google notices the difference and rank the sites better.

Les algorithmes en art

Vera Molnar

La machine Imaginaire

I imagined I had a computer. I designed a programme and then, step by step, I realized simple, limited series which were completed within, meaning they did not exclude a single possible combination of form. As soon as possible I replaced the imaginary computer, the makebelieve machine by a real one.

ELIZA
1966

```
Welcome to
      EEEEEE  LL      IIII  ZZZZZZ  AAAAA
      EE      LL      II      ZZ  AA  AA
      EEEEEE  LL      II      ZZZ  AAAAAAA
      EE      LL      II      ZZ  AA  AA
      EEEEEE  LLLLLL  IIII  ZZZZZZ  AA  AA

Eliza is a mock Rogerian psychotherapist.
The original program was described by Joseph Weizenbaum in 1966.
This implementation by Norbert Landsteiner 2005.

ELIZA: Is something troubling you ?
YOU: Men are all alike.
ELIZA: What is the connection, do you suppose ?
YOU: They're always bugging us about something or other.
ELIZA: Can you think of a specific example ?
YOU: Well, my boyfriend made me come here.
ELIZA: Is it important to you that your boyfriend made you come here ?
YOU: He says I'm depressed much of the time.
ELIZA: I am sorry to hear that you are depressed.
YOU: It's true. I am unhappy.
ELIZA: Can you explain what made you unhappy ?
YOU: █

Antoine Schmitt

Le critique automatique

1999

La pièce inimitable de Antoine Schmitt, qui crée des passerelles interdisciplinaires investissant l'infrasigne, se veut la cristallisation de son parcours atypique. Malgré la spécificité des problématiques, Antoine Schmitt veut montrer son parcours dans l'ambivalence permanente dont l'intérêt constitue la forme de son oeuvre singulière.

Antoine Schmitt se donne à lire dans une perspective microhistorique en affrontant systématiquement l'espace virtuel dont il métamorphose avec tact la dynamique des conditions d'existence traditionnelles.

Antoine Schmitt's inimitable piece which create inter-disciplinary bridges imbued with infrà-signs intends itself to form the crystallisation of his atypical journey thus far. Despite the specificity of the problematic, Antoine Schmitt shows his journey in a state of permanent ambivalence the interest of which constitutes the very shape of his unique œuvre.

Antoine Schmitt is to be read from a micro-historical perspective by systematically confronting the virtual space of which he tactfully metamorphosises the dynamic of the traditional conditions of existence.
